PRICE: \$400 plus shipping costs from Denver, or local pick-up.

ITEM DESCRIPTION: I picked this up from an estate sale. All metal lower hull w/ metal gearboxes, tracks, wheels, suspension, drive & rear sprockets, and metal barrel. Plastic upper hull. Smoke unit. Drives well. Comes w/ 2.4 GHz electronics, Radio at 1300 mAh battery. Sold as is...no warranties. I could not get the BB function to hook up...seems to be no receptor for the plug. So very good tank for conversion to IR.
